**Subject:** Re: PCB TSCA Rules

Hey Rich. Thank you for the info. I have been out of the office for a while for various reasons. I will be speaking with my management this week about our current status on this issue, and will get back to you tomorrow to touch base regarding the TSCA regulations and how they mesh with beneficial use/clean fill. Best regards

**Subject:** PCB TSCA Rules

I left you a message this afternoon with respect to a beneficial use project that I am working to remediate in Palmerton, PA. The site is using Regulated Fill that is being placed by Phase III Environmental, LLC. The owner of Phase III has asked me to contact you to begin a dialogue to bridge the Agency's application of the TSCA rules with New York and New Jersey cleanup and remediation standards. It is my hope to get representatives together into a meeting or teleconference to confer on PCB-impacted waste and how we may consider management options.

Rich Parrish  
CEO/President
